

This is me at the keyboard thinking about the music. *

* note vacant look in the eyes

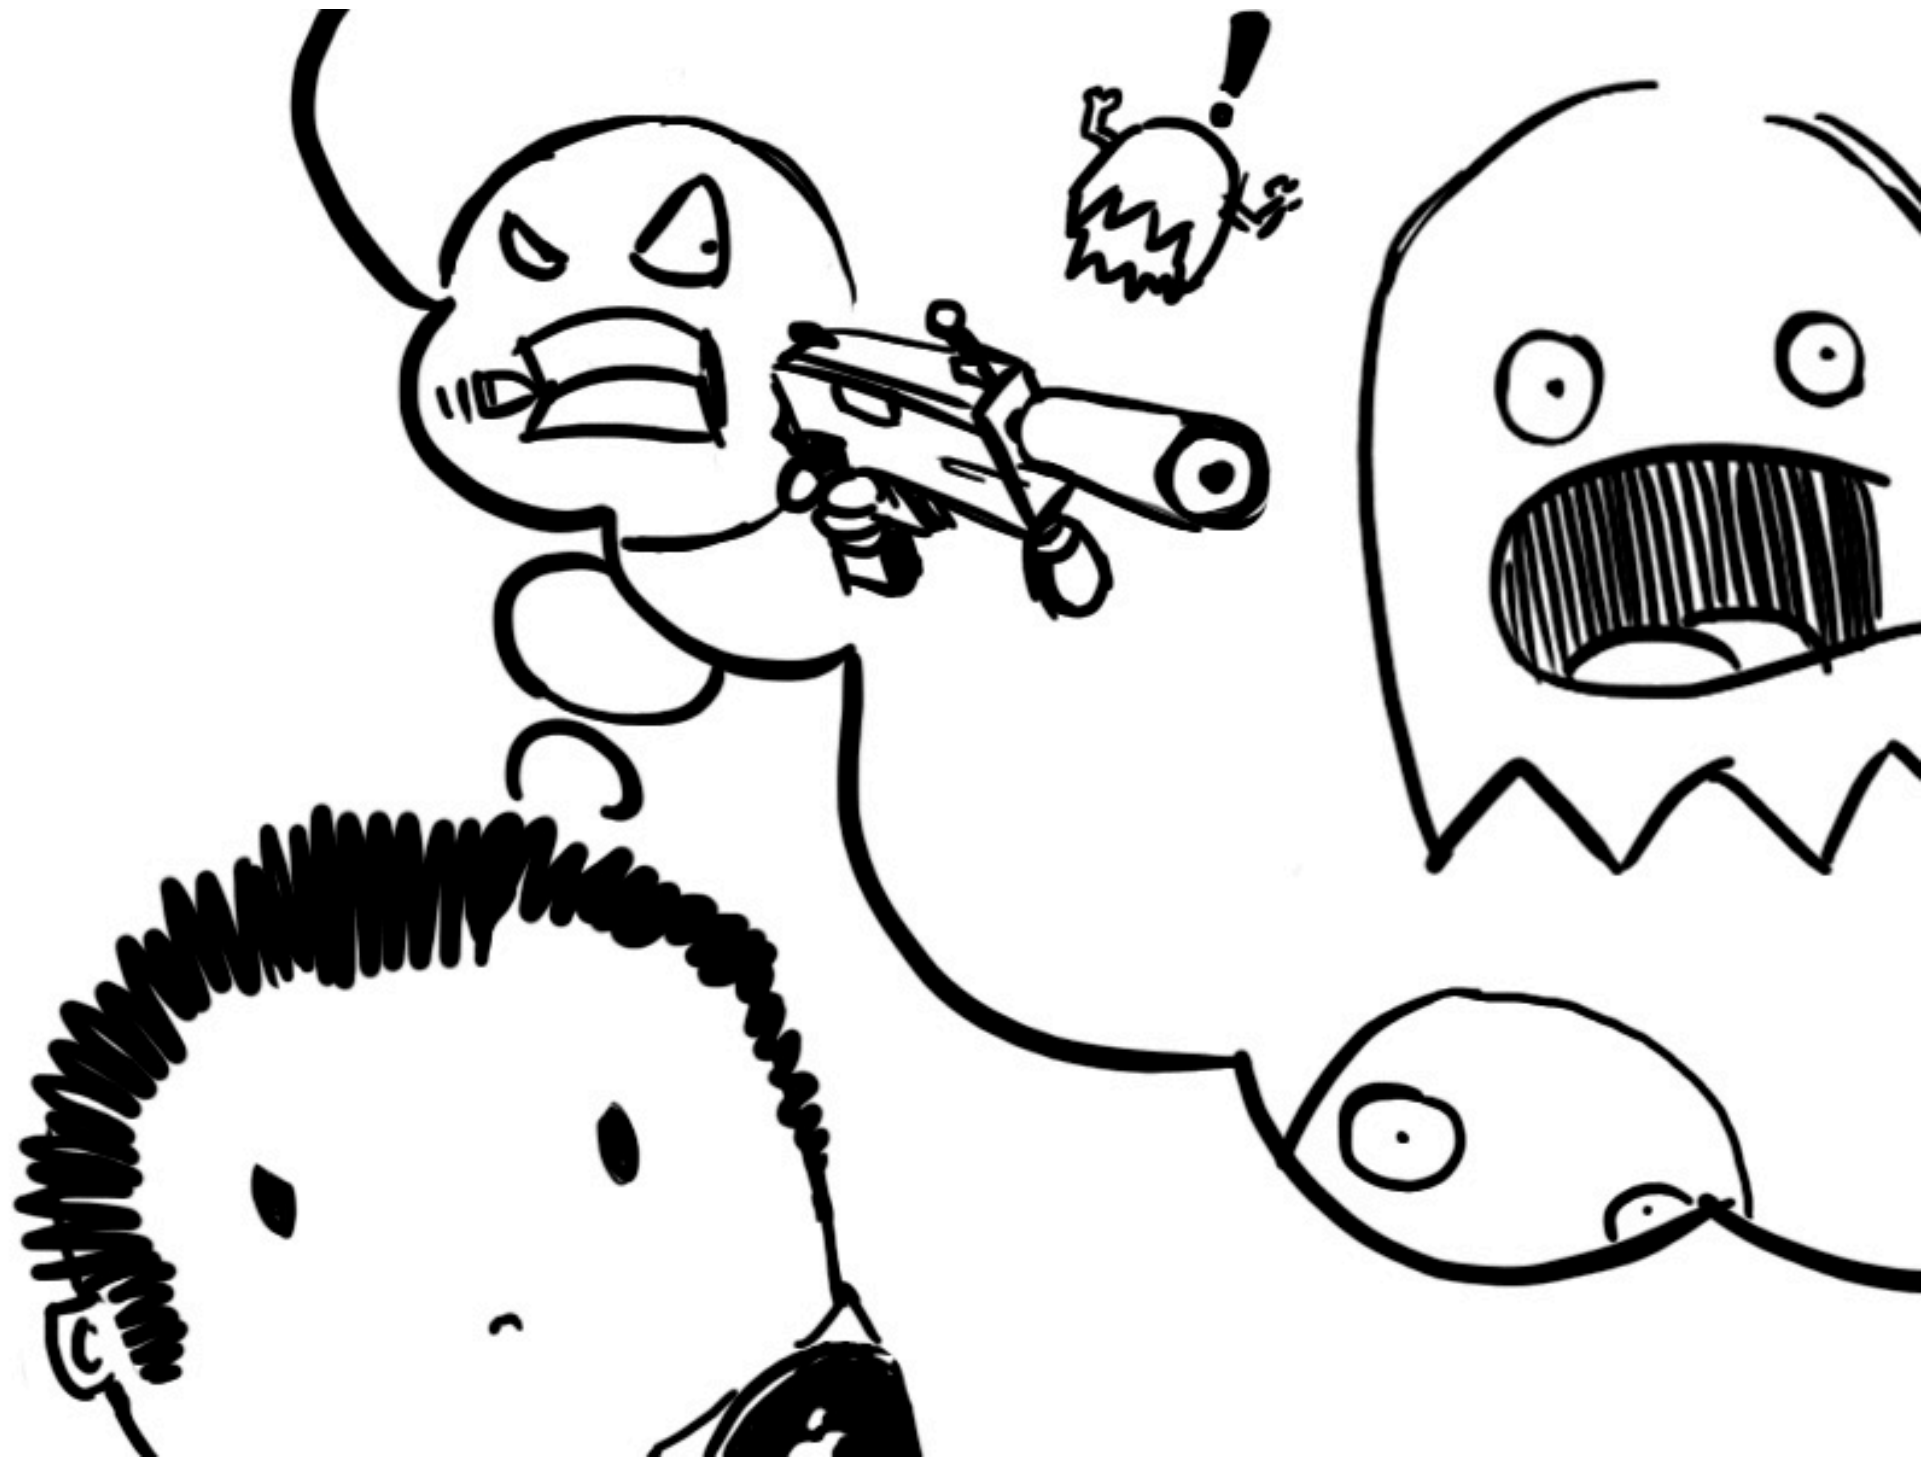

This is me stepping away from the keyboard
to play the original Pac-Man on my iPhone.

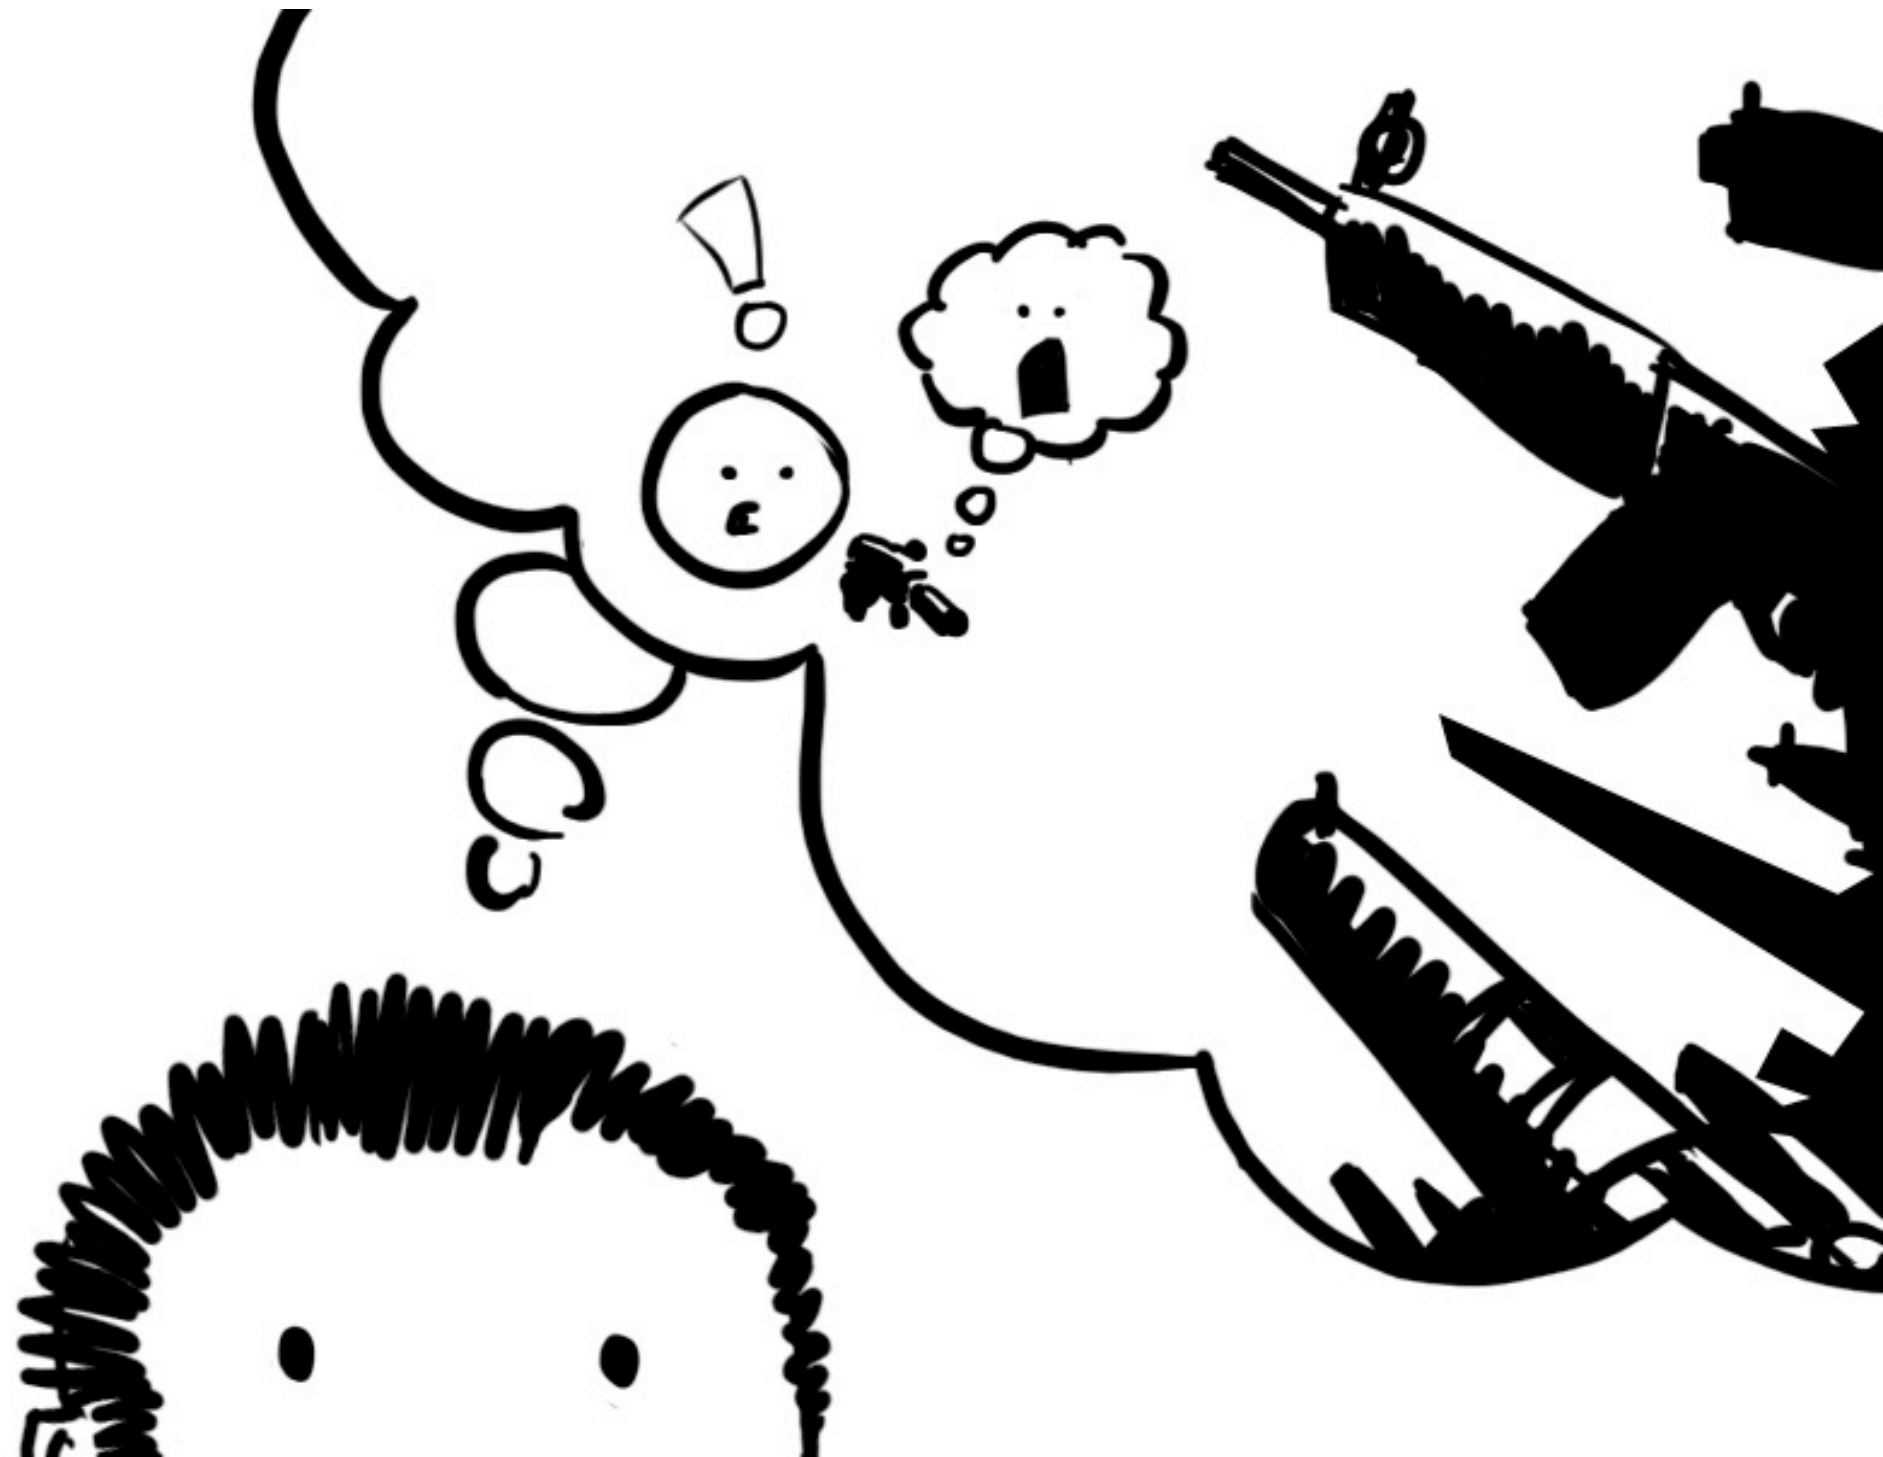

This is me realizing that, you know what, ghosts are kind of scary.

This is me thinking that, if Pac-Man only had a gun, this could even the odds. Because ghosts, as we all can agree, are scared of guns.

This is me realizing that eventually, the ghosts would catch wind of this
and probably get guns of their own.

This is me writing down the music.
