

# Unlocking World Game Markets From China

Charlie Moseley  
Creative Director, Tap4Fun

GAME DEVELOPERS CONFERENCE™ CHINA  
SHANGHAI INTERNATIONAL CONVENTION CENTER  
SHANGHAI, CHINA · OCTOBER 19-21, 2014

Good Morning

# About Myself and Tap4Fun

# About Myself

- 32 years old, from Washington D.C.
- Gamer since age 5, when I fell in love with Mario & Luigi
- In China since 2005, working on mobile games with Tap4Fun since 2010
- Leader of Tap4Fun's Creative Department, which houses most of the companys' foreigners
- In it for the international hit

# About Tap4Fun

- 4 years old, from Chengdu China (capital of Sichuan Province)
- Focused *only* on multiplayer strategy
- Among highest grossing mobile developers in China (ranked ~30 worldwide)
- In the words of our CEO Kevin Yang:  
“An international company based in China, not just a Chinese company”
- Also it for the international hit

# What This is About

- Sharing our 3+ years of experience and our rise to notoriety
- How to create concepts and develop products for China, or anywhere
- How to market your games to international audiences
- How to adapt culture and products
- My perspective as an expat in China
- Answers to your questions

# Quick Numbers on Tap4Fun

500k DAU

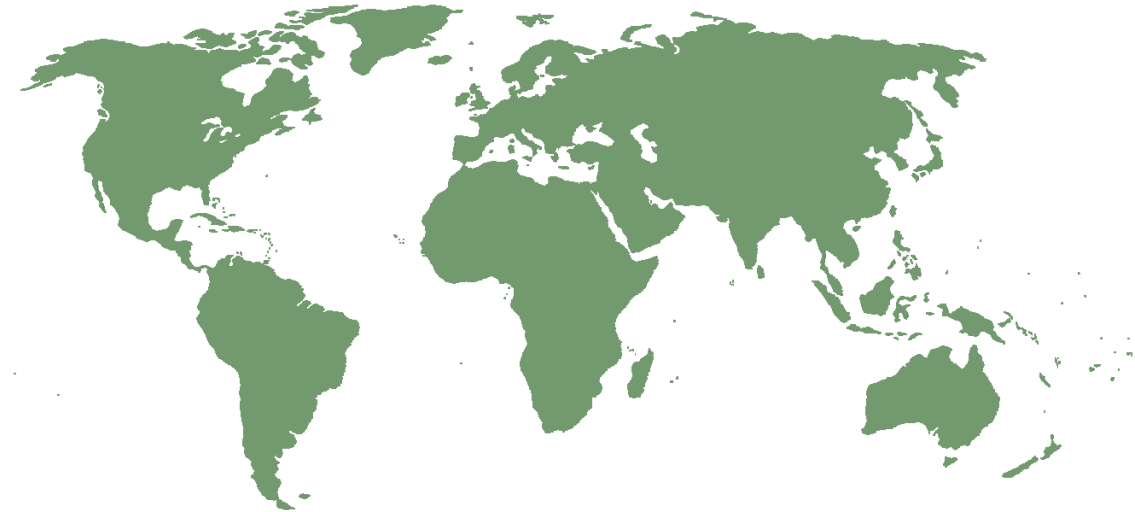

30+ Million Users

8 Games

400 “Tappers”

# Our Most Lucrative Markets

- United States
- France
- United Kingdom
- Russia
- Germany
- China

# Product Overview

- Build, upgrade, compete with players, and expand your power and influence
- Iterative development cycle, male-skewed demographic
- Common SLG game themes + one or more unique elements per product

# Product Overview

Island Empire  
2011

Galaxy Empire  
2011

King' s Empire  
2012

Spartan Wars  
2012

Global Threat  
2013

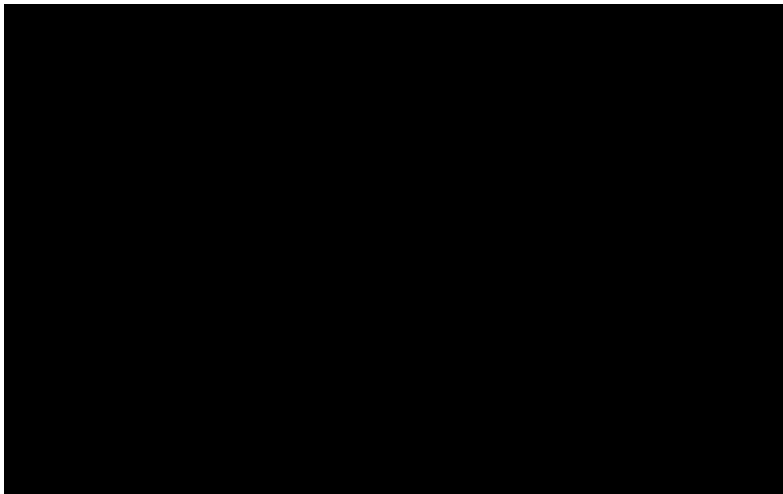

Galaxy Legend  
2013

# Product Overview

2014 release, currently  
in public beta on Google  
Play and iOS in limited  
markets

# Product Overview

Upcoming 2014 Release, pre-release name Reign of War

# How and Why to Develop Game Concepts for World Markets

# Worldwide Market Relative to China

- China is huge and growing fast. No doubt about it.
- 4/10 of the top apps are owned and published by Tencent. Difficult to find success in China
- Other BRIC countries developing nicely, especially Russia. US, UK, Germany, France, very stable.
- 黑卡

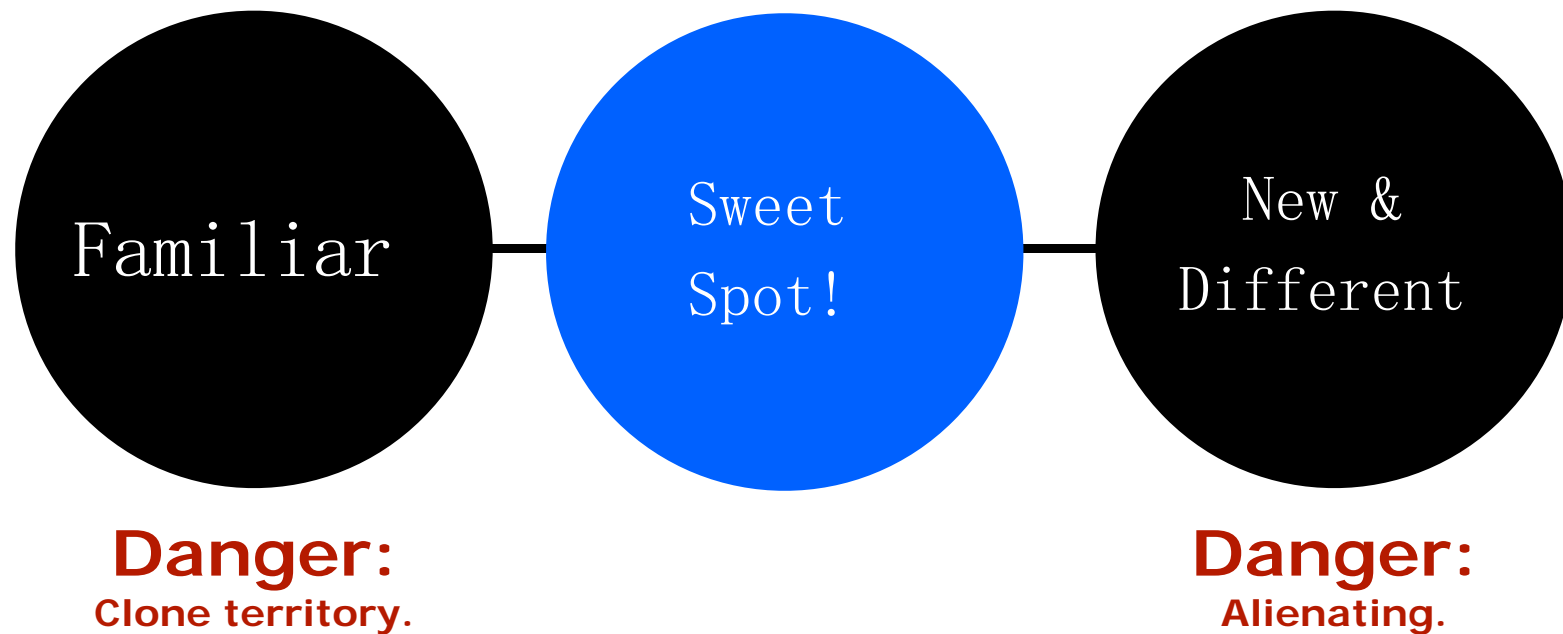

# Concept Creation

- Simple ideas. “Simplicity is the ultimate sophistication”
  - Davinci (1977 Apple slogan, too)
- Evaluate team ability and determine your level of risk tolerance
- Familiarity + “a hook”

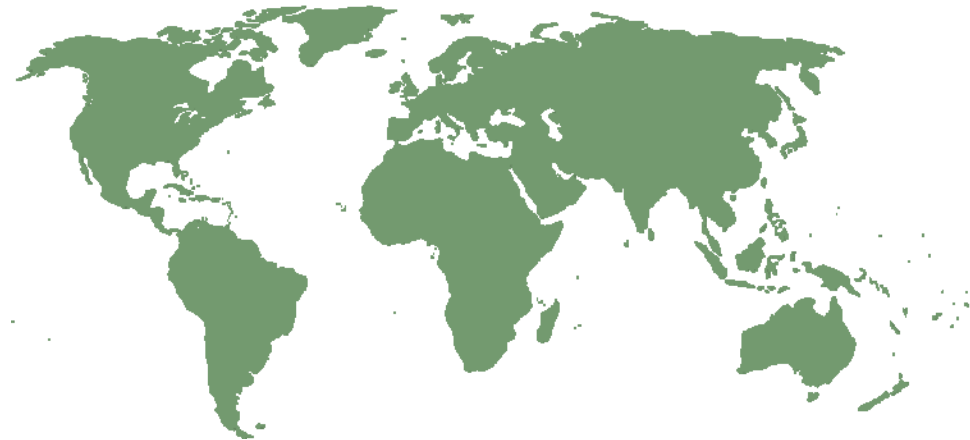

# Concept Creation

# Concept for International Audiences

- What ideas are understood and appreciated by world cultures?
- What cultural precedent is there for your concept?
- What cultural bias to you bring to your concepts?  
Examples: China & Sanguo, Japan and anime, me and prohibition era concept

# Liquor Empire

“Build a 1930’ s underground empire and reign as Kingpin over your organized criminal network”

# What is the Prohibition Era?

- Believing it was a crime against God, in 1920 the United States made alcohol illegal, causing an underground alcohol culture to explode
- At the same time, Mussolini expelled thousands of members of Italian organized crime, who immigrated to NYC and Chicago

# Visual Inspiration

- Familiar mafia setting
- Unique, old school Prohibition Era setting
- Alcohol-driven game economy
- Historical reference

# Why didn' t it work?

A lot of concepts won' t work. That' s normal.

Onto a concept that did work...

# Spartan Wars

- A concept from Feb. 2012: a Spartan-themed game of conquest
- The Spartan theme, with Greek mythology, was fresh and suited the SLG gameplay aesthetic
- Do people understand Sparta? They do, because of one movie.

# Finding “Roads”

The movie 300 planted  
“the seed” that made  
this theme relatable and  
familiar.

It paved the “cultural  
road” to Spartan Wars.

# The Thin Line Between Inspiration and Copyright Violation

# The Risks and Rewards

- Successful identification and use of a cultural wave
- The risks of crossing the line: legal action, removal from the app store, ridicule
- China & IP protection
- What real inspiration means, how to teach and train it

# Defining Plagiarism

*“the act of using another person’s words or ideas without giving credit to that person.”*

Intellectual property includes artwork, ideas, stories, themes, and more. Inspiration is encouraged and stealing is penalized.

# Inspiration Encouraged

Gerard Butler in  
Spartacus

# Inspiration Encouraged

App Icon for Spartan Wars, developed by Tap4Fun

# Inspiration Encouraged

# Theft Penalized

Artwork for Magic:  
The Gathering,  
created by Jason Chan  
for Wizards of the  
Coast

# Theft Penalized

Event banner  
artwork in King' s  
Empire

# Theft Penalized

# Build a Legacy

Warren Buffet  
says:

*“It takes 20 years to build a reputation and 5 minutes to ruin it. If you think about that, you will do things differently.”*

# Build a Legacy

Steve Jobs says:

*“Innovation  
distinguishes between a  
leader and a follower”*

# Mistakes Are Part of Success

*"We have this culture of celebrating failure," explains Paananen. "When a game does well, of course we have a party. But when we really screw up, for example when we need to kill a product -- and that happens often by the way, this year we've launched two products globally, and killed three -- when we really screw up, we celebrate with champagne. We organize events that are sort of postmortems, and we can discuss it very openly with the team, asking what went wrong, what went right. What did we learn, most importantly, and what are we going to do differently next time?"*

# Think About Building Long Term Value

# Creative Department

Within Tap4Fun, we have a department which reviews all creative materials in every game, including artwork, characters, story, sound effects and music, and game titles

# The Promise and Desire for Breaking Into China

## Successfully Developing and Launching Games in China

# Breaking Through the Perception of China

# International Games Fair @ Gamescom

A large banner for UKTI Great Britain is displayed. The banner features a black background with a red horizontal band at the top. The text 'CREATIVITY IS GREAT' is prominently displayed in white, with 'GREAT' inside a red rectangular box. Below this, the word 'BRITAIN' is written in white. In the top right corner, the URL 'ukti.gov.uk/greatbritain' is visible. To the right of the URL, the 'LittleBigPlanet' logo is present, with 'Media Molecule' written below it. The banner is hanging in front of a glass partition, and a person is partially visible in the background.

# KungFu BBQ

Amazing eastern-styled turn-based side-scrolling MMORPG, with the Chinese classics' storyline, various systems, and miscellaneous fun gameplay.

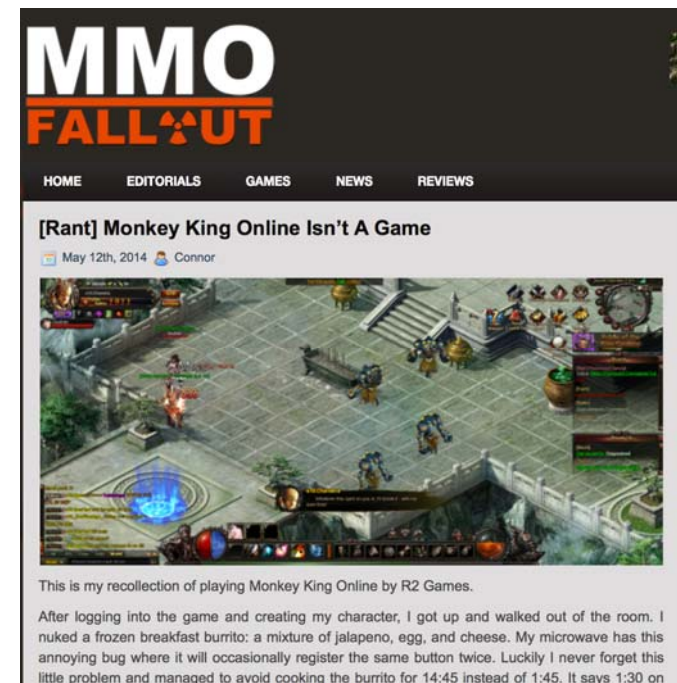

# Monkey King Online

- Based on the Journey to the West franchise popular in China
- 3D isometric browser-based MMORPG, along with hundreds of similar titles in China and Korea
- Doesn't only fall flat in the West, gets notably ridiculed

# “Monkey King Online Isn’t a Game”

- Review on [MMOFallout.com](http://MMOFallout.com)
- Brought to my attention on Facebook by a game developer
- Raises an important point: you cannot take popular games in China and simply port them to the rest of the world. The cultural gap is too great.

# “Monkey King Online Isn’ t a Game”

*“This game is mediocrity at its finest, to the point where I’ d much rather not even talk about the finer details on just how bad it is. Mix a horrible user interface that is full to the saturation point with shiny buttons and a constant stream of rewards to keep your attention, and big numbers very early on for the kiddies. The game throws everything but the kitchen sink at you, a barrage of tasks that are exactly the same in all but name.”*

*“Monkey King Online falls into the lowest tier of MMOs in terms of quality. They are pumped out by the hundreds every year in China and Korea with a few making their way westward thanks to publishers like R2 Games. Isometric free to play games that are heavy on the cash shop and so self-aware of how mind numbingly boring, uncreative, and unintuitive they are, that the game revolves around mechanics that allow it to play itself.”*

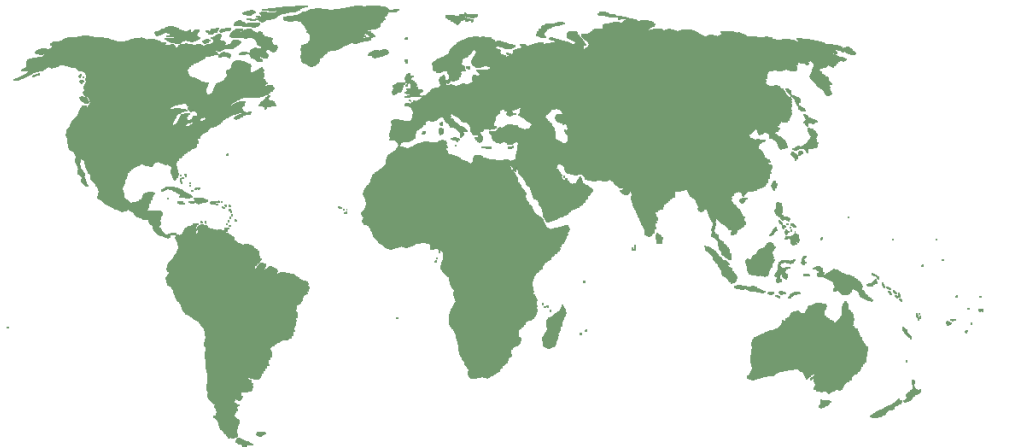

# The Importance of a Name

- Change your name and see 20x as many downloads
- Our A/B testing process: different accounts, no other variables changes (icon, description, FTE, publishing date)
- ASO = Keyword volume + competition
- Google Play vs App Store

# Localizing Your Game

- Which countries do you localize in?
- Investment & development costs
- Experimental campaigns in emerging markets: data analysis
- Tap4Fun & Arabic: Island Empire & Spartan Wars
- How Tap4Fun has localized
- Our latest localization efforts (moderators)
- The importance of support

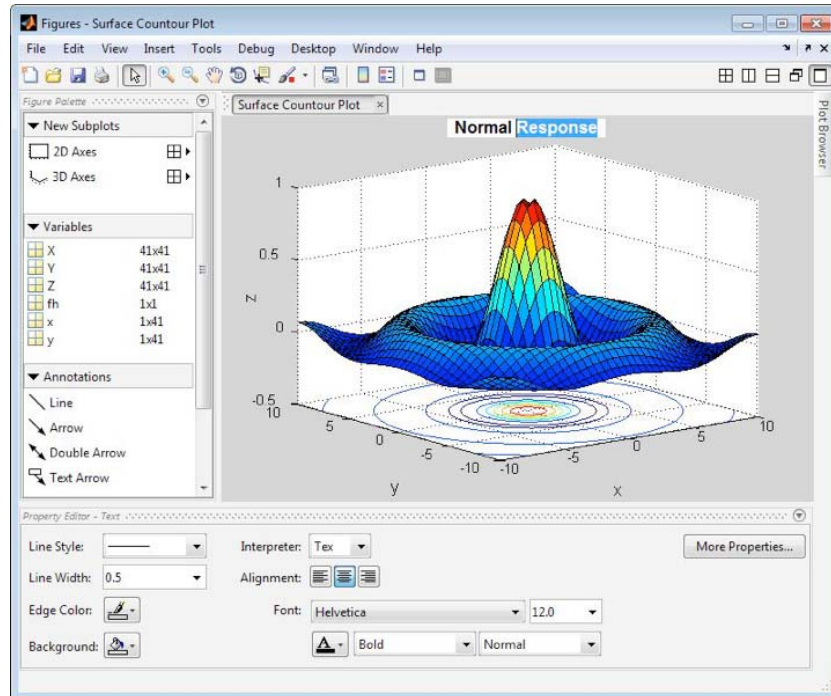

# Providing Support

- 11 localizations for Spartan Wars: English, Spanish, Russian, German, French, Italian, Portuguese, Japanese, Korean, Traditional & Simplified Chinese
- Up to 3,000+ tickets per day shared among multi-lingual support team
- Constantly hiring language majors for support team
- Why this is important: the kind of players who create support inquiries & supporting “whales”

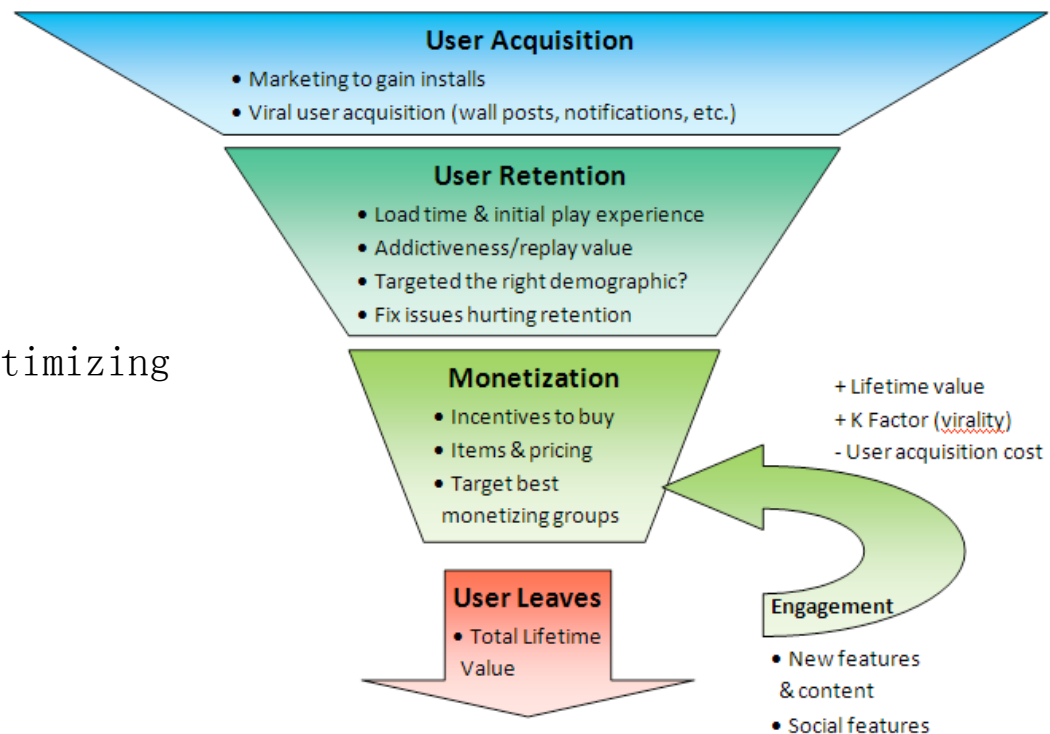

# Data Analysis

- “Dive into the data” to find out exactly what’s happening
- Tap4Fun’s ocean of lost data & our corrected path
- MathWorks’ MATLAB (Matrix Laboratory)
- Monetization funnel

# Monetization Funnel

- Finding weak links
- Constantly analyzing and optimizing
- Endgame = High LTV

# User Acquisition

- Should I buy users?
- Rising CPI
- Incentivized installs and user value
- Conventional thought is that you have to buy users, but that's not always true
- Galaxy Legend vs Empire trilogy
- Recent example of success without marketing

# Educate Yourself (Globally)

- Use international sources to learn more about the game industry, and find specific info for your niche (mobile, console, strategy, indie, etc)
- GDC San Francisco is an amazing experience, but the GDC Vault can provide much of the same value for cheap or free
- Many websites!

Website to check out:

- Gamasutra
- Games Industry International
- Deconstructor of Fun
- What Games Are
- Lost Garden
- Thoughts on Game Design
- All Work All Play

# Embracing Diversity and Tap4Fun in Paris

# Tap4Fun Paris

- Why open an international office?
- The importance of diversification and internationalization
- “Tap4Fun cannot be a Chinese company, it must be a company headquartered in China”
- Finding the world’ s best talent

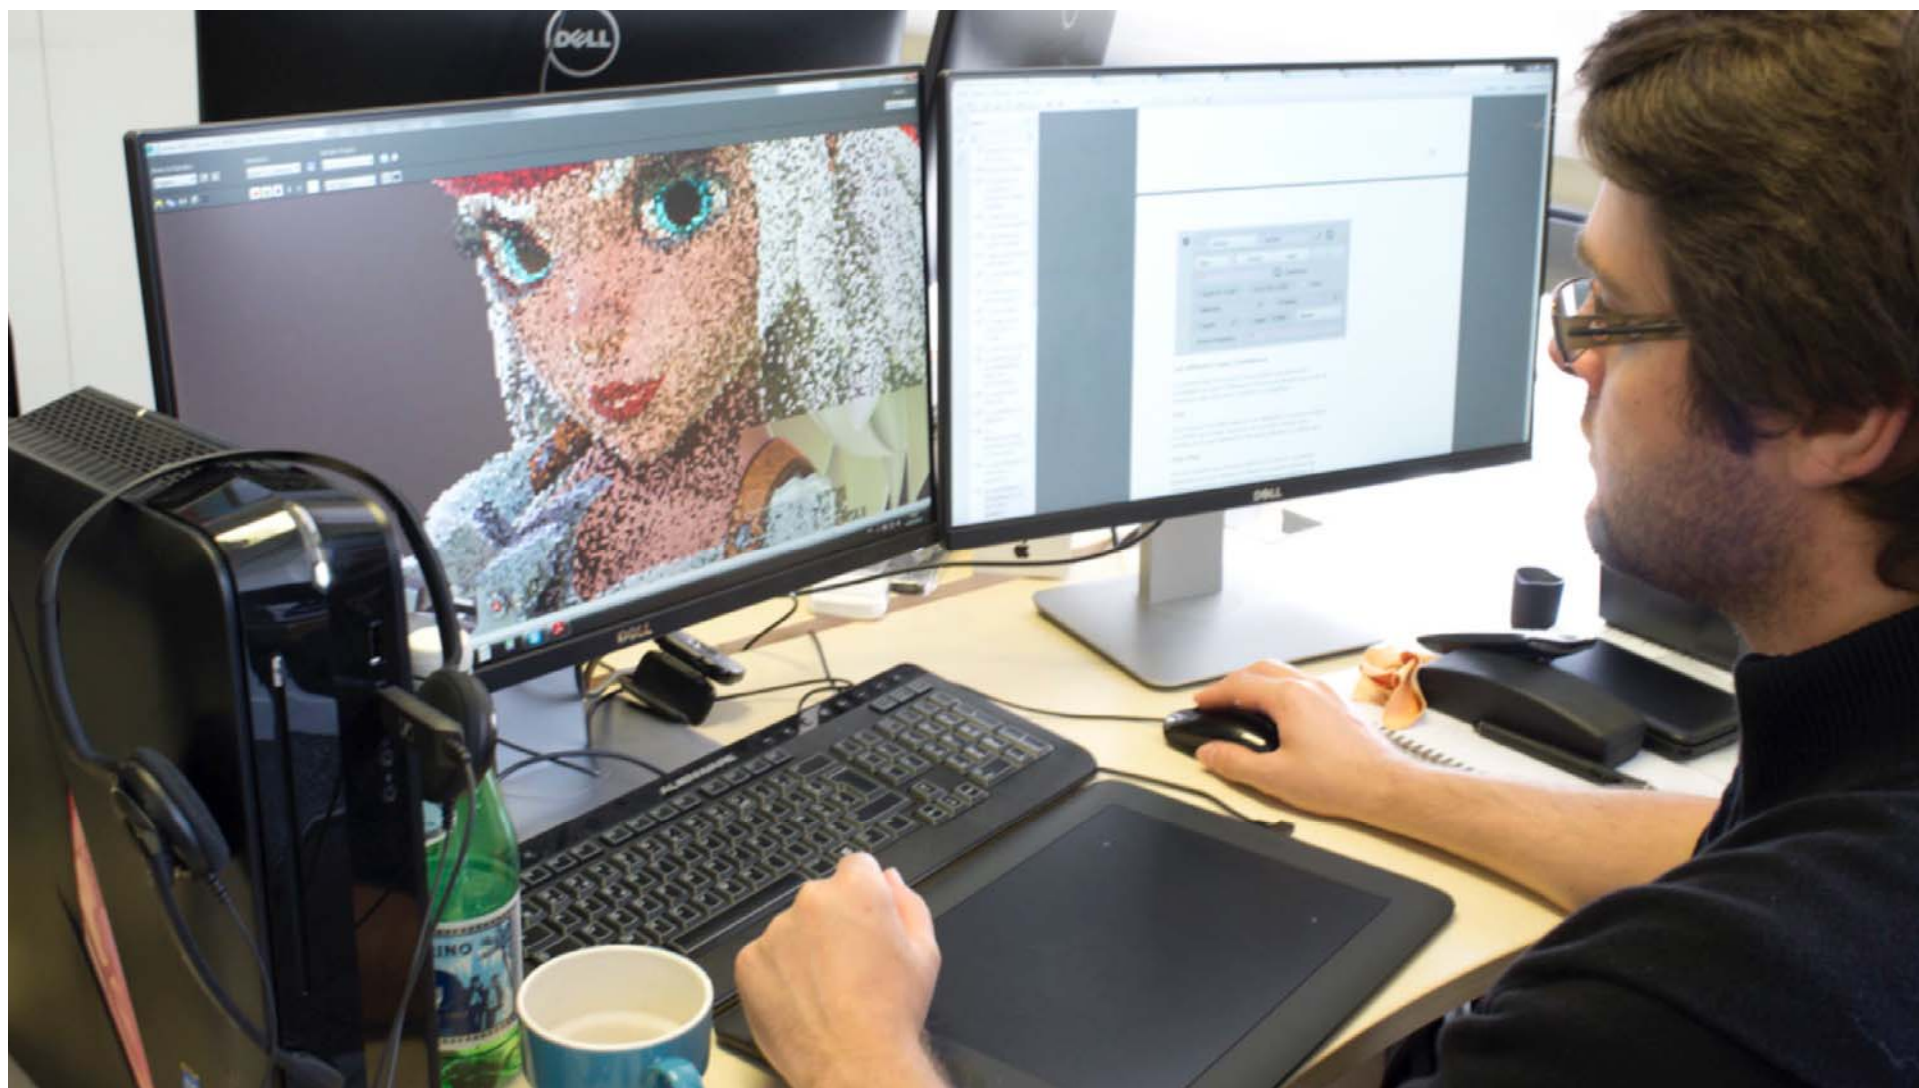

# Nokia and Diversity

- Nokia's board: same, same
- No one wants to be Nokia, but everyone wants to learn from Nokia's example
- Always challenge yourself, always expand and move forward

Thanks, and I' d love to  
hear your questions.
