

Ana Barbuta | QA Manager, Guerrilla Games

Horizon Zero Dawn:

An open world QA case study

Topics

- *Intro*
- *The challenges of **Horizon Zero Dawn***
- *Our QA ingredients*
 - *Team structure*
 - *Test strategy*
 - *Tools and automation*
- *Summary & Takeaway points*
- *Questions?*

Who we are – Guerrilla Games

- *First party Sony studio*
- *Best known for the Killzone franchise... until now*

The challenge for the project

- *A lot of “firsts”*
- *High complexity*
- *Lack of tools*
- *Incompatible engine*
- *Many unknowns*
- *Lack of experience*

The challenge for QA

- *Scope*
- *Small test team size*
- *Unproven strategy*
- *New to open world games*

Facing the challenges

- *New QA team structure*
- *Focused test strategy*
- *Efficiency through technology*
- *Data-driven approach*

INGREDIENT #1: THE QA TEAM

QA Team

- *Early involvement*
- *Specialized*
- *Embedded*
- *Autonomy*
- *Ownership*

Ownership areas

ZERO DAWN™

Expansion

WWS QA
(AKA FPQA)

From isolated operators...

...to 'buddies'

BFFs

INGREDIENT #2: TEST STRATEGY

Test Strategy Goals

- **Adaptable** *to new iterations*
- **Scalable** *with unexpected factors*
- **Relevant** *to new methodologies*
- **Efficient** *with a small team*

Test Strategy Goals

- **Adaptable** *to new iterations*
- **Scalable** *with unexpected factors*
- **Relevant** *to new methodologies*
- **Efficient** *with a small team*

EditCommentLog workMoreReopenAdmin

basicsExtra info

Script Status: NA

Description

A sweep to check that when a CC robot is hit by a overridden pulse, its electric shock resistance is stripped.
This should be checked against all CC variant robots;

- Snapmaw
- Charger
- Stalker
- Scrapper
- Thunderjaw
- Rockbreaker
- Longleg
- Redeye Watcher
- Fire Bellowback
- Freeze Bellowback
- Behemoth
- Shellwalkers

James Bergin added a comment - 30/Aug/17 4:42 PM

Sweep was performed on all Daemonic variants of robot which could be affected by the Control Towers pulse. [Resistance.png + CC Post Check]

No issues were reported against it.

An additional task was added checking the resistance the Daemonic Robot have after their immunity was removed. Ensuring all Shock values are correct [Shock Resistance.png]. There is an issue and we are waiting a response form the combat team regarding this.

Test Automation

Apollo – Autonomous Automated Autobots

A woman with long, wavy red hair and a blue earplug is shown in profile, looking out over a vast, misty, and rocky landscape. She is wearing a brown, fur-trimmed tunic with a blue and red beaded necklace. The background features rolling hills, rocky outcrops, and a thick layer of mist or fog, creating a serene and atmospheric scene.

TAKEAWAY POINTS

Nurturing The Test Team

- Trust
- Communication & Collaboration
- Empowerment & Ownership
- Learning & Growth

Developing A Test Strategy

- Efficiency – process & tools
- Focus:
 - Risk
 - Changes
 - Weak points
- Evolve & Improve

Using Tools & Technology

- Increase understanding
- Informative for developers
- Testing efficiency
- Data-driven

Potential downsides

- Siloing
- False positives
- Recruitment challenges
- Training needs

Trophy Unlocked!

- *45 hours of play time (average)*
- *57 quests*
- *~500 unique combat encounters*
 - *Spawning almost 1500 combat scenarios*
- *44 unique enemies*
- *10 hours of cinematic sequences*
- *Over 480 000 words of dialogue*

*We succeeded by building a culture
of **collaboration** and
open communication,
in which we focused on **efficiency**,
expertise and **flexibility**.*
