Weszt Hart (Head of Player Dynamics, Riot Games)

Inspired by a roundtable discussion at the Fair Play Alliance Symposium

October 2019 (London)

to **invest** in fair play?

Need to focus on
Player Dynamics
for fair play...

in Player Dynamics?**

Player Dynamics Maturity Model

for game companies

Shift from punitive to proactive

1

Skeptical

Dismissive of Player Dynamics. No PD work.

“Eh...”

2

Ceremonial

Recognizes value, but PD work is mostly accidental or ad hoc.

“That’s the internet.”

3

Provincial

Dedicates a single team on a single game. Reactive work.

“Kick out the bad actors!”

4

Essential

Coordinates efforts across per-title teams. Proactive work.

“Root causes?”

5

Cultural

Entire company is committed.

“Full potential?”

6

Societal

Supports external community building.

“Next generation...”

Align everything towards values

THIS STARTS WITH YOU
AS PART OF THE VALORANT COMMUNITY, I WILL:

1

COMPETE TO WIN, TOGETHER

Teamwork wins games. I recognize that I can only win **WITH** teammates, not in spite of them.

2

COMMIT TO RESPECT AND EMPATHY

I understand that respect and empathy build trust, and that trust is needed so everyone can perform their best.

3

PROTECT MY COMMUNITY

I will build the community I want to play in, one match at a time. I will champion the needs of others, while striving to keep my games welcoming and fair for everyone.

4

BE MY OWN LAST LINE OF DEFENSE

I will help Riot keep me safe. I will be responsible with my account, devices, personal information, and conduct.

ACCEPT

EXPECTATIONS

Every VALORANT player deserves an opportunity to be themselves and play their best. You deserve to be able to play each match free from harassment, hatred, and abuse; so do your teammates and your opponents.

To create a game that lives up to our values above, we need your help. When you play VALORANT, we both ask and expect you to commit to the following:

COMPETE TO WIN, TOGETHER

Teamwork wins games. Recognize that you can only win **WITH teammates, not in spite of them.**

For example, we expect and encourage you to:

- ✓ Stay focused on strategy. If you can't agree, pick something and commit. You're better off working together on a questionable plan than not working together at all.
- ✓ Leverage your team's strengths and help cover their weaknesses. They'll cover yours too!
- ✓ Celebrate the plays of your teammates. You set them up, help them shine in the moment!
- ✓ Bring your best self to every match. Everyone has bad games - we understand! But don't queue up if you're not in it to win.

- X Don't give up on teammates, even if they're having a bad game.
- X Never sabotage your team or try to ruin the game, even if you're not having fun.
- X Please don't tell teammates how they should be playing. If they're open to it, constructive feedback is great! But don't order people around, even if you're frustrated.
- X Avoid spending more time arguing than collaborating. If you're out for the round, focus on helping your team finish strong rather than arguing with them while they close it out.

COMMIT TO RESPECT AND EMPATHY

We ask that you treat others with dignity and respect. Exercise empathy and seek to build
