How to improve?
What about developers?
How about play testers?

**Does the designer's idea match the
player's experience?**
=> the death of a beloved character

**Hands up:
Who only tests with team-members?**

**Hands up:
Who also runs tests with friends and family?**

**Hands up:
Who runs planned play tests
with paid participants?**

Instructions

We are conducting an academic study about personalizing, adapting, and balancing computer games. You will be asked to fill out questionnaires, play a game, and perform a task. Following game and task, you will be asked to complete additional questionnaires that ask you questions about your experience.

This task can only be performed in **Firefox**, since it requires Unity.

Select the link below to complete the study. At the end of the study, you will receive a code to paste into the box below to receive credit for taking our survey.

Make sure to leave this window open as you complete the survey. When you are finished, you will return to this page to paste the code into the box.
