

Games for Health A 2020 Update

Noah Falstein
President, The Inspiracy

GAME DEVELOPERS CONFERENCE

AUGUST 4-6, 2020 | #GDC20

"Games for Health" – my personal story

What use is a newborn baby?

Definitions

- Education / Research / Treatment / Training / Diagnosis
- Game Tech only / Gamification / Serious Games
- Digital: Health / Medicine / Therapeutics (DTx)
 - Wellness / Clinical Evidence / CE + Real World Outcomes
 - <https://dtxalliance.org/2019/11/11/digital-health-digital-medicine-digital-therapeutics-dtx-whats-the-difference/>
- Digiceuticals: disturbingly like Edutainment...

This annual overview has been hijacked!

- Originally supposed to be general developments
- Covid-19 has invaded our lives, shifted emphasis
- The C-19 response itself may be 2nd most significant news of the year regarding games for health

WHO about-face (maybe?)

- May 2019: “Gaming Disorder” listed as addictive
- April 2020: Video games recommended to help promote social distancing and fight C19

Can we do better? Let's continue to show the world

Games to fight Covid-19

- Largely games/companies with existing products
 - 'Tis faster to mod than to develop from scratch!
- Wide range of research, training, education

Foldit – finding proteins to block Covid-19

- Foldit is searching for block to binding site of virus
- Many players still looking for solution

Balanced Media Tech – Hewmen platform

- Cit Sci – block spike receptor
- Combines “Game-enabled human intelligence” with Grid computing and collaboration

BALANCED[®]
M E D I A | T E C H N O L O G Y

EteRNA

- Solve puzzles by configuring RNA molecules
- OpenVaccine is a campaign to mobilize the Eterna community to design a stable mRNA vaccine against COVID-19.

CCP Project Discovery – Eve Online

- Citizen Science Game to combat Covid-19
 - Third phase of CitSci – SETI, Protein Mapping previously
 - Play within game
 - This phase about analyzing flow cytometry, measuring characteristics of cells

Crazy Paving Project

- Proposal for Citizen Science
 - Led by Prof. Emma Lundberg
 - Crowdsourcing annotation of CT imaging of lungs
 - Crazy Paving is a kind of lung occlusion
 - Disclaimer – Speaker is advisor to project
 - Non-profit venture in search of funding
- please contact emma.lundberg@scilifelab.se

Level Ex - Airway Ex and Pulm Ex

- Covid-19 scenarios
- Free to public

Virtual Heroes – also free to public

- HumanSim
Sedation & Airway

Oxford Medical Simulation – VR training

- Training 17,000 new and retired pros

StoryUp – Healium

- VR/AR + Brainlink lite EEG
- Stress relief without drugs
- Adapted to Covid stress
- Healium won Proctor & Gamble Ventures innovation challenge

Game Company Fundraising

- Dozens of companies soliciting funds from players
- Also donating their own revenues
- Advantage of mature, financially solvent industry

Beyond Covid-19

- What other long-term games-for-health news?
- Three interesting developments

New generation of technologies

- VR/AR, ML/AI, Brain/Gait/Eye trackers, implants next?

Level Ex → Brainlab 1st acq. of many?

The Level Ex logo consists of the words "LEVEL EX" in a white, stylized, sans-serif font. The letters are composed of horizontal and vertical bars, giving it a digital or architectural feel. It is centered within a solid black rectangular background.

LEVEL EX

The Brainlab logo features a stylized black icon of a brain or a series of curved lines, followed by the word "BRAINLAB" in a bold, black, sans-serif font.

 BRAINLAB

Akili Interactive – FDA clearance

AKILI

Future maturity?

- Those infant technologies will grow w/in Health
- Many more investments, shifts to work on DTx
- Branching to treat depression, pain, many others
- More in new category of predictive and diagnostic
- Many brand new categories we can't predict

Maybe not who you think

Thank You!
